

Jon Fredrikson, Editor

The Gomberg-Fredrikson Report is "the executive marketing report of the American wine industry."

Originally created by wine industry pioneer Louis R. Gomberg in the late 1940s, The Gomberg-Fredrikson Report is the only established information source that monitors monthly and annual comparative shipments of leading California wineries and wine imports by country. The report also provides insightful commentary and analysis of current conditions and trends shaping the market.

Strategic Insights to Help You Manage Your Grape & Wine Business

- Monthly commentary and analysis of leading California winery shipments.
- Monthly updates on volumes and values of imported wines by type from all major countries.
- Monthly listing of largest Chilean winery shipments.
- Monthly reports on cased and bulk exports of California wine for leading producers.
- Monthly exports of American wine by country of destination.
- Quarterly reports include shipments of over 140 California wineries, analysis of ACNielsen reports, shipments from leading Coastal warehouses with subtotals by region, top 10 winery market shares and special charts and analyses.
- Reports published in paper and pdf editions. You can download the latest pdf reports from our web site.
- The Annual Wine Industry Review issue contains total market (California, other states, and imported wine) shipment volumes for twelve months ending December. This expanded edition includes year-to-year comparisons and a summary of market driver trends, table wine volume and revenue growth by price segment, California varietal sales estimates, and other year-end summary analyses, charts and graphs.
